**WORLD OF  
ENERGY  
SOLUTIONS**

[www.world-of-energy-solutions.com](http://www.world-of-energy-solutions.com)

## Get connected to the **WORLD OF ENERGY SOLUTIONS**

Decentralized energy production and storage, electric mobility, batteries, fuel cells and hydrogen technologies: How will they change the energy economy? Discover it at **WORLD OF ENERGY SOLUTIONS** – one of the most important international sector platforms.

Who shapes the industry? Find out first hand at the **trade fair**. Meet scientific masterminds, market leaders and policy makers.

What's inside the newest generation of batteries and fuel cells? What role do these technologies play in a "smart" world? Who holds the key to mass manufacturing?

**Get answers at the conference.**

Who will advance your business? Meet that someone in person. Benefit from a large variety of **networking opportunities: trade fair, conference, international matchmaking, evening event, ride and drive**: Be part of it. Get connected.

**Put your business under the spotlight. Showcase your products and services.** We provide three strong exhibition topics: **BATTERY+STORAGE, f-cell, e-mobility solutions**. Find out which area is tailored to address your particular target group!

## **BATTERY+STORAGE**

portrays the entire value-added chain of battery manufacture and applications: From R&D to materials and production through to the end product.

**Showcases solutions for:** Mass production, cost efficiency, system integration, applications, ...

### **Exhibition area:**

#### **+ Battery production means**

Cell, modules and packs, manufacturing automation, recycling

#### **+ Measuring and testing technology**

For the production, for the products

#### **+ Battery storage**

Materials and components, products, power electronics, application areas

#### **+ Safety engineering**

Safety engineering in production, fire protection, safety cabinets, storage and transport, other safety engineering

#### **+ Research and development, service providers, others**

Universities, research organisations, technical universities, pilot plants and technology centers, contract manufacturing, project development and implementation, factory planning, turnkey solutions, facility engineering, consulting, training and further education, standardisation and standards, maintenance and service, financing, sales/after sales, media and publishing companies, trade associations and organizations, others

**150+**  
SPEAKERS

**130+**  
EXHIBITORS

**3.000+**  
INDUSTRY EXPERTS

**30+** COUNTRIES

## F-CELL

shows fuel cell and hydrogen technologies all the way from the drawing board into the market. The trade fair introduces news from R&D, materials and components as well as manufacturing processes and different application areas.

**Showcases solutions for:** Serial production, cost efficiency, product quality, system integration, ...

### Exhibition area:

- + **H<sub>2</sub>: Production, storage and infrastructure**  
Reformer, fossil and alternative fuels, electrolyzers, other H<sub>2</sub>-production, gas purification, vessels, compressors, liquefiers, storage materials, filling, tank trucks, pipelines, gas suppliers
- + **Fuel cells and fuel cell components**  
AFC, LT-PEMFC, HT-PEMFC, DMFC, PAFC, MCFC, SOFC, fuel cell stacks, components BoP, housing
- + **Application areas**  
Stationary, mobile, special markets
- + **Measuring and testing technology**  
Test benches, safety testing devices, service life measurement, other measuring and test systems
- + **Production technology and materials**  
Assembling, coating, production of bipolar plates, installation, quality assurance, validation, metals, plastics, ceramics, composites, sealings, heat insulation, electrical insulation, catalysts, others
- + **Research and development, service providers, others**  
Universities, research organisations, pilot plants and technology centers, contract manufacturing, project development and implementation, factoring planning, facility engineering, consulting, training and further education, standardisation and standards, maintenance and service, financing, sales/after sales, trade associations and organizations, media and publishing companies, others

## E-MOBILITY SOLUTIONS

for tomorrow are sustainable, eco- and consumer-friendly. So are the business models, products and services presented in the e-mobility solutions exhibition area.

**Showcases solutions for:** Connected drive, urban and rural mobility, fleet management, ...

### Exhibition area:

- + **Power trains**  
Electric power trains, fuel cell power trains, hybrid power trains, electric engines and axle drives, drive components
- + **Electronics**  
Power electronics, control systems, integrated circuits, software, test systems
- + **Automotive engineering**  
Packaging, driving dynamics, driving resistances, complete car architecture, two-wheeler and light vehicles, passenger cars, commercial vehicles, special vehicles
- + **Infrastructure**  
Charging infrastructure, inductive charging, parking and charging systems
- + **Mobility concepts**  
Car-sharing, fleet management
- + **Research and development, service providers, others**  
Universities, research organisations, technical universities, pilot plants and technology centers, contract manufacturing, project development and implementation, factoring planning, facility engineering, consulting, training and further education, standardisation and standards, maintenance and service, financing, sales/after sales, trade associations and organizations, media and publishing companies, others

+ **Event motto 2016: Let's motivate the market!**

+ **Conference focus: Smart system solutions for connected users**

# OFFERS

## Trade fair (prices / m²)

	Early bird price (until March 18, 2016)	Regular price (from March 19, 2016)
Row booth	€ 205.00*	€ 215.00*
Corner booth	€ 230.00*	€ 240.00*
End booth	€ 245.00*	€ 255.00*
Island booth	€ 265.00*	€ 275.00*

You receive more information about the booth construction packages with the registration or upon request. \*Actual VAT will be added to all prices stated.

## Conference prices

	Early bird price (until July 31, 2016)	Regular price (from August 1, 2016)
One-day ticket	€ 427.50*	€ 475.00*
Two-day ticket	€ 756.00*	€ 850.00*
Three-day ticket	€ 945.00*	€ 1050.00*
Evening event	€ 95.00*	€ 95.00*

\*Actual VAT will be added to all prices stated.

## Free services of Peter Sauber Agentur

We promote and advertise the WORLD OF ENERGY SOLUTIONS to attract your audience. Peter Sauber Agentur provides an extensive range of marketing material so you can actively promote your presence at the event:

- + Logos for imprinting in your own marketing material
- + Online advertising banners
- + Preliminary conference program
- + Visitor brochures
- + Admission codes for free trade fair day tickets
- + Assistance for travel and accommodation planning

Host:

Peter Sauber Agentur  
Messen und Kongresse GmbH  
Wankelstraße 1  
70563 Stuttgart  
Germany
